EDUCATION

University of Waterloo

Bachelor of Mathematics, Honours Mathematics (Computational)

Waterloo, ON

2025 - 2029

TECHNICAL SKILLS

Languages/Frameworks: Python (Pandas/NumPy), TypeScript, SQL, Racket, React, Next.js, Node.js, Liquid, Swift

AI Tools: Mastra, NVIDIA NIMs, LangChain, OpenAI API, Cursor, Claude Code, Vector, LLM's, Transformers

Cloud & Security: AWS, Azure, IAM, SIEM, ISO 27001, SOC 2, RBAC, Vercel, Brev.dev

Certifications: AWS Cloud Practitioner, Cisco CCST (Cybersecurity), Microsoft AZ-900, IT Specialist Python

EXPERIENCE

Operations

Toronto School Of Foundation Modelling

Jun. 2026 - Present

Toronto, ON (Hybrid)

- Streamlined scheduling and logistical workflows to support foundational model research and hands-on teaching.

AI Software Engineer

Zown

Apr. 2026 - Present

Toronto, ON

- Generated \$1M in autonomous sales by engineering 9 custom AI tools for workflow automation.
- Filtered spoofing from 75,000+ government database listings by deploying advanced NLP extraction pipelines.
- Purged 250 redundant CRM fields in 7 days by architecting new MCP integrations.

Founding Fullstack Software Engineer

Knibble

Aug. 2025 - Nov. 2025

Waterloo, ON

- Increased course generation speed 10x by automating MASTRA structured output workflows for AI modules.
- Achieved 95% content accuracy by engineering RAG workflows with vector databases and prompt optimization.
- Reduced onboarding friction 40% by developing real-time APIs and responsive Next.js frontend components.

Software Engineering & Systems Design Intern

Islamic Books & Souvenirs

Dec. 2024 - June 2025

Toronto, ON

- Saved 20+ hours monthly by automating Shopify-Clover catalog synchronization using Python & Pandas scripts.
- Halved inquiry response times by integrating a custom WhatsApp automation flow into customer support.

Software Engineering & Cybersecurity Intern

The Blackstone Foundation Library

Feb. 2024 - June 2024

Toronto, ON

- Cut review time 60% by developing a Python admin dashboard for membership registration and approval.
- Mitigated 80% of unauthorized access attempts by implementing robust RBAC security policies and IAM.
- Secured 1,000+ member records through scheduled automated security audits and critical patch management.

Junior Cybersecurity Engineer

Canadian Cyber Inc.

Jan. 2020 - Oct. 2023

Mississauga, ON

- Mitigated 150+ vulnerabilities and cut response time 25% via SIEM automation and log analysis.
- Facilitated 10+ successful client audits by updating ISO 27001 and SOC 2 compliance policies.
- Strengthened endpoint security by deploying BitLocker and WIP policies org-wide to protect company data.

PROJECTS

imit8 | *Swift, macOS Accessibility, Computer Use, Computer Vision*

- Built an on-device macOS automation tool utilizing screenshot reconstruction to track tasks and replay workflows.

GooseType | *React, TypeScript, Supabase, Next.js, PostgreSQL*

- Developed a competitive typing platform handling 5,000+ tests with sub-100ms latency using PostgreSQL.
- Scaled platform architecture to support real-time leaderboards and multi-university competition flows for users.

COMPETITIONS & AWARDS

Hack the North, GoOnHacks Winner, DMZ CanHack, PicoCTF (8th National), LyonCTF (4th National)

Hosted the largest hackathon based on muslim-ethics, UmmahHacks (300+ builders)
